OUR COLLECTION – YOUR CHOICE

HANDCRAFTED QUALITY – Established in 1994, Ortega Guitars introduced German design to authentic and traditional methods of guitar making. Committed to innovation and quality, we strive to improve what is expected at every level of all our acoustic instruments. Options like the 12-hole bridge, often found

only on high-end guitars, are standard at our entry level to professional nylon string guitars. Our wide variety of body and neck sizes accommodates all ages giving everyone an opportunity to learn and play. Inspection standards are placed at many stages to assure that our instruments are the finest quality

REQUINTO SERIES

Rooted in Mexican and Latin American traditions, requinto guitars are smaller versions of the classical guitar with a shorter scale length and a notably deeper body depth. Our Requito Series guitars are not only suitable for Trío romántico groups and traditional folk music but are also great instruments for acoustic performances, where amplification is not possible, as they are much louder than a traditional small body guitar.

THERMO SERIES

Our new Thermo treated nylon string models are created with the use of a revolutionary technique that processes selected woods into "aged" tonewoods. The woods are heated up in a vacuum with a special treatment to remove water and resin. The results are lightweight, harder, and stronger woods – a process that normally takes decades – but it retains a sensational response and tone. The process makes the Spruce tops shine like amber which gives the additional vintage aesthetic.

ECOTIP

Sustainability is always an important factor for Ortega Guitars when selecting materials for our products, and there are few natural materials suitable for instrument building that are more sustainable than bamboo. This unique material continues to grow very quickly, without replanting, and its grain pattern actually makes it stronger than many typical hardwoods.

ACOUSTIC AMPLIFICATION AMPLIFICATION SERIES

Following the success of the first-ever acoustic amplifier stack, the C One provides acoustic musicians multiple functionalities in a convenient package. The C One is ideal for both performing and practice, featuring 100 watts of power, a built-in DSP effects unit, and two separate channels. Thanks to the integrated pole mount, it can even be utilized as a compact PA for your next gig. The amplifier combo comes with two wood options: a light Ash or a dark and elegant Walnut housing.

DIGITAL WIRELESS SYSTEM

The Ortega Digital Wireless System features 2.4 GHz digital technology and broadcasts incredible crystal-clear audio quality. Ready to use in seconds the system offers four operating channels (A, B, C, D), power/charge indicator and a rechargeable, built-in battery (+2500 charging cycles). The latency of < 5 ms and a full range frequency coverage of 20 Hz – 20 kHz secures great, detailed and real time sound.

The ODWS supports most active & passive systems as well as acoustic piezo devices*.

The ODWS Digital Wireless System:

- 2.4 GHz technology is permission free/approved for use in America (North and South), Europe, Asia and Australia**
- Up to 30 meters (100 ft.) of range without any dropout***
- Up to 4 systems simultaneously (4 channels – A, B, C, D)
- Rubberized SHOCKPROOF housing (ODWS-1 & ODWS-1BK)
- 24 bit/48 kHz uncompressed digital transmission
- Easy to start in seconds – plug & play
- Auto-standby (sleep mode) after 10 seconds when there is no signal
- One transmitter can serve multiple receivers
- Rechargeable via USB (cable included!)
- Up to 5 hours use on a single charge
- Appx. 225° adjustable jack to fit almost every instrument
- THD + Noise: > 0.05 % (1KHz @ -10dbFS)
- Dynamic Range: > 103 db A weighted
- Operating temperature: -10° to 50° celcius (14° F – 122° F)

Includes:

- 1x Transmitter
- 1x Receiver
- 1x USB double head charger cable

6STRING GUITAR – ATMOSPHERE green

ORTEGA Guitars atmosphere green strings are created and manufactured in Italy. We replaced the usually oil based treble strings with a newly developed nylon material which is made from 100% plant-based products. Our Atmosphere Green strings deliver a perfect combination of bright, warmth, punchy tone and incredible projection. Precise intonation and long-lasting tuning stability add to their exceptional playability.

6STRING GUITAR – ATMOSPHERE balance

Through our intensive engineering process, we calculate the windings, thickness, and core of the 3 bass strings. This process creates additional flexibility which increases vibration and resonance, ultimately delivering an extraordinary brightness and crystal-clear tonal experience. This creates a fully balanced string which delivers superior feel and tone.

ORTEGA LOVES LEFTIES!

As a left-handed person, you do not need us to tell you how difficult it is to find a stringed instrument with the exact features, fit, and feel you are looking for.

At Ortega Guitars, we understand this challenge, which is why we offer one of the widest selections of left-handed stringed instruments on the market.

In this catalog, you will find 60 models of guitars, ukuleles, acoustic basses, mandolins, and banjos specifically designed for the wide variety of left-handed musicians out there.

With our broad selection of sizes, colors, neck widths and configurations, you are sure to find the perfect instrument for your needs, without the typical "lefty upcharge"!

LEFT-HANDED NYLON STRING GUITARS

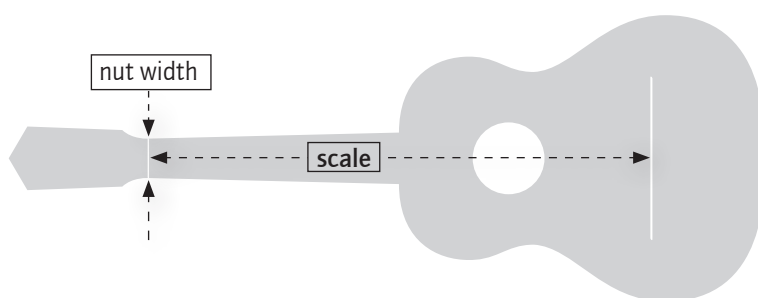

Ortega breaks barriers without losing focus on the basics of classical guitar making. Always conscious of the deep traditions of the guitar construction, we are not afraid to apply contemporary processes in order to improve the playing experience. Two-way truss rods, 12-hole bridges, and a wide variety of scale lengths and nut widths are just some of the ways Ortega is moving guitar building forward in order to make a better instrument for you.
